MONUMENTAL CHOIR $\text{♩} = 90$

1. With great pleasure and with joy we are gathered here to day
2. Even here our God helped you not one moment left your soul
3. God will keep us in this love hence let us prepare our hearts

our arms are open wide once again
and to us made you return please be welcome
sanctifying them to Him to give praises

every heart feels happiness filled with great love from above
Jesus Christ had led the way with his presence gave you strength
in the heavens high above where no one will be a part

all as one we raise our voice: Thank you Lord!
out of danger kept you safe; please be welcome.
and no sadness will surround we'll be welcome.
